

Day	Date	Section	Section Topic	Week
M	8/20	1.1, 1.2	Equations in one variable, formulas, equations and graphs in two variables, linear equations	1
W	8/22	1.2, 1.3		
F	8/24	1.3, 1.4		
M	8/27	1.6	Quadratic equations, linear equations and solving equations involving absolute value.	2
W	8/29	1.7		
F	8/31		Review	
M	9/3		Labor Day	
W	9/5		Chapter 1 Worksheet	3
F	9/7	2.1, 2.2	Functions, graphs,	
M	9/10	2.2, 2.3	Graphs, basic function families, transformations (shift, flip, stretch, shrink), operations (addition, subtraction, multiplication, division, <i>composition</i>).	
W	9/12	2.3		
F	9/14	2.3, 2.4		
M	9/17	2.5, 2.6	Inverse functions, variation.	5
W	9/19		Extra	
F	9/21		Chapter 2 Test	
M	9/24	3.1, 3.2	Quadratic functions and inequalities, zeros of polynomial functions, theory of equations.	6
W	9/26	3.2, 3.3		
F	9/28	3.3		
M	10/1	3.4, 3.5	Miscellaneous equations, graphs of polynomial functions, rational functions and inequalities	7
W	10/3	3.5, 3.6		
F	10/5	3.6		
M	10/8	XTRA	Whatever necessary	8
W	10/10		Extra	
F	10/12		Chapter 3 Test	
M	10/15	4.1	Exponential functions, logarithmic functions, rules of logarithms.	9
W	10/17	4.1, 4.2		
F	10/19	4.2		
M	10/22	4.3, 4.4	Rules of logarithms, exponential and logarithmic equations.	10
W	10/24	4.4		
F	10/26		Extra	
M	10/29		Chapter 4 Test	11
W	10/31	5.1, 5.2	Systems of linear equations in two and three variables, systems of nonlinear equations.	
F	11/2	5.2, 5.3		
M	11/5	5.3, 5.5	Inequalities, systems of inequalities, solving systems of linear equations with matrices, multiplying matrices.	12
W	11/7	6.1		
F	11/9	6.1, 6.2		
M	11/12		Extra	13
W	11/14		Chapters 5 and 6 Test	
F	11/16	8.1, 8.2	Sequences, series	
M	11/19	8.2, 8.3	Geometric sequences and series	14
W	11/21		Thanksgiving Recess	
F	11/23			
M	11/26	8.3, 8.4	Geometric series, permutations	15
W	11/28	8.5	Combinations and Binomial Theorem	
F	11/30		Extra	
M	12/3		Final Test, To Be Arranged. Want it fairly early in the week, but I need to manage any possible conflicts with other instructors	16
W	12/8
