

If you're finishing homework the day before the test, you're LATE.

Give yourself time to ask questions, take a few of those OLD exams (Practice Tests link on online.aims.edu).

Formulas: Write 'em out every time you use them, instead of just trying to get homework done for points. The ONLY reason for homework is to prepare to do this stuff on your own.

S2.1 vids
pretty good.
Found & addressed
some errors.

- ① Go to notes that accompany the videos.
- ② Watch the homework videos
- ③ Watch the TEST PREP videos
- ④ TAKE a practice test, or 2 or 3, without a net.
