

Writing Projects:

4 of them. I'll be handing them out in about a week. (The first one.)

Portal to MyMathLab on Pearson:

<https://mlm.pearson.com/northamerica/mymathlab/>

harryzaims.com - good stuff. Heuristic learning is learning in the context of problem-solving. Have 2 windows open. One to the notes. One to the videos. Find the exercise in the notes and use notes to locate the video.

For Ask My Instructor, I really want you to register on MyLab using your D2L e-mail address. DO EDIT YOUR PROFILE ON PEARSON TO REFLECT YOUR ONLINE.AIMS.EDU E-MAIL ADDRESS.

NOT your aims.edu e-mail, but your D2L e-mail. If you're not sure what that is, go into D2L E-Mail and send yourself an e-mail from the classlist.
