As long as it's postmarked before the deadline, we're OK. Hand-carrying your written work to my office will get the quickest turn-around. I don't want you to have to type it - just write it very carefully and clearly. Do not try scanning it to e-mail. That just makes work for me, unless we waste a lot of time (and work) teaching half the class how to get me product I can use without a lot of fussing.
